

PRABHAT SAINI

AI/ML Engineer · Full-Stack Developer · B.Tech Computer Science

+91 8006077821 | prabhat23169064@akgec.ac.in | github.com/prabhat243 | Ghaziabad, U.P

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full-stack web development, DevOps, and a rapidly growing foundation in Artificial Intelligence and Machine Learning. Proficient in Python, data structures, and the JavaScript ecosystem. Skilled in containerization (Docker, Kubernetes), CI/CD pipelines, Infrastructure-as-Code (Terraform, Ansible), and cloud platforms (Azure, AWS). Recently upskilled in core ML/DL libraries (scikit-learn, NLTK) and Generative AI concepts (prompt engineering, APIs). Seeking a software or DevOps internship to apply development, automation, and deployment skills in a real-world setting.

TECHNICAL SKILLS

Languages: Python (primary), JavaScript (ES6+), C, C++

AI / ML: scikit-learn, NumPy, Matplotlib

NLP: NLTK, Prompt Engineering

Frontend: React.js, HTML5, CSS3, Responsive Design

Backend: Node.js, FastAPI

Database: SQLite, MySQL

Tools: Git, GitHub, Jupyter Notebook, VS Code, Postman, Google Colab

DevOps: Docker, Kubernetes, ArgoCD, Terraform, Ansible, Linux, Networking, Azure, AWS

EXPERIENCE

DevOps Engineer Intern · Kushel Digi Solutions

Jun 2026 – Present

DevOps · Cloud · Onsite

- Working on containerization and orchestration using Docker and Kubernetes in a production environment.
- Assisting in setting up CI/CD pipelines and infrastructure automation using Terraform and Ansible.
- Gaining hands-on experience with cloud platforms (Azure/AWS) and GitOps workflows using ArgoCD.

PROJECTS

Sentiment Analysis API · Python, NLTK, scikit-learn, FastAPI · [GitHub](#)

NLP · Machine Learning · REST API

- Built a text sentiment classifier using NLTK for preprocessing and scikit-learn (Logistic Regression / Naive Bayes) trained on the IMDB dataset.
- Exposed the model as a FastAPI REST endpoint returning sentiment label and confidence score.
- Achieved ~88% validation accuracy; documented the pipeline in a Jupyter Notebook for reproducibility.

SecureScan · FastAPI, React/Vite, SQLite · [GitHub](#)

Full-Stack · Security · Python Backend

- Engineered a full-stack web vulnerability scanner covering SQL Injection, XSS, SSL/TLS analysis, and port scanning modules.
- Designed a FastAPI backend with async scan jobs and an SQLite database for historical report storage.
- React + Vite frontend presents real-time scan results; the architecture mirrors MLOps serving pipelines.

EDUCATION

B.Tech — Computer Science

2023 – Present

Ajay Kumar Garg Engineering College, Ghaziabad · 3rd Year

CERTIFICATIONS & LEARNING

- The Complete Web Developer Bootcamp — Udemy (2024) · Full-stack JavaScript, Node.js, React, MongoDB
- Machine Learning with Python — (Self-study: scikit-learn, NumPy, Pandas, Matplotlib via YouTube)
- Generative AI Fundamentals — (Self-study: Prompt Engineering, OpenAI APIs, LangChain basics)
- DevOps Engineering — (Self-study: Linux, Networking, Docker, Kubernetes, ArgoCD, Terraform, Ansible, Azure, AWS)
